

CHAMPWARE™

The ChampWare product line offers a responsible solution to your tableware needs. This premium product line consists of plates, bowls, platters, and clamshells. ChampWare products are naturally sourced using bagasse, a fibrous by-product of the sugarcane refining process. An FDA approved additive is used to ensure the greatest amount of moisture and grease resistance. When composted, this additive creates no soil polluting by-products. All ChampWare items are recyclable and compostable in the limited areas where facilities exist. Contact your sales rep for more information.

ChampWare™
